*Fair open Tuesday Evening, June 12, at 8 p.m. After Tuesday, 2 until 11 p.m.*

*Dinner Served at the Rink Every Evening, 6 to 8 o'clock.*

# The Road to Health

---

Is through balmy air, sunshine and good nursing, combined with a food that is full of nutriment and easily digested.

Such a food is SHREDDED WHOLE WHEAT. It is made of the whole wheat, cleaned, cook and drawn into fine porous shreds and baked. These delicate shreds contain all the nutritive elements of the whole wheat grain and are taken up and assimilated when the stomach rejects all other food.

Doctors and Nurses Praise Shredded Wheat.

"Denver, Colo., March 1, 1906."

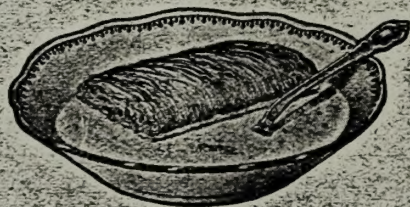

"I can confidently say that Shredded Whole Wheat, containing as it does all the nutritive elements of the wheat, and being in porous form is rendered easily digested, peristaltic action is promoted, and an invaluable substitute is presented for the usually over-sifted flour and meal so unsuited to feeble conditions of the alimentary canal. Because indigestion and dyspepsia are so generally precursors and accompaniments of tuberculosis, and because of its tissue building power, this is an excellent article of food for the tubercular."

CHAS. DENISON, M. D., Denver, Colorado."

Author "Rocky Mountain Health Resorts," "Climates of United States in Colors," etc., etc.

SHREDDED WHEAT is made by The Canadian Shredded Wheat Company, Limited.

When your friends come to Niagara Falls have them visit "The Home of Shredded Wheat." Guides are furnished free.

"It's All in the Shreds"

# THE FINEST FURS IN THE WORLD.....

Are Manufactured in Canada,  
and the Finest Furs Manufac-  
tured in Canada come From  
Our Own Warerooms. . . . .

Our Fur Showrooms are open all the year through. We make special displays of the newest designs in Fur Sets, Separate Pieces, and Fur and Fur-lined Garments.

Tourists and travellers from all over the Continent are beginning to count on a visit to "Fairweather's", as much a part of seeing the sights in Canada as seeing the Falls. We extend a hearty invitation to you to pay the store a visit.

Besides furs we sell most everything else man or woman wears.

## J. W. T. Fairweather & Co.

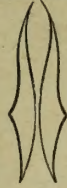

84-86 Yonge Street, : : : Toronto

# The Fair of Nations

---

---

After many months of preparation, will be officially opened on Tuesday evening, June 12th, at eight o'clock. The Fair Committee and convenors with their many workers have spared neither time, energy, nor expense, to make "Fair Week" one of unparalleled interest, and unique in the history of this city. Twelve nations will be illustrated at this Fair; the native dress being represented by people living in houses which will be direct imitations of the architecture peculiar to their country. Also in these houses, which will be gorgeously decorated and illuminated with myriad incandescent lights, will be found goods from their native clime, beautiful, interesting, useful, and at reasonable prices. In addition each evening "A Midway" will be in progress with many entertaining attractions, among which will be a first-class vaudeville performance.

# The Niagara Frontier

---

The vicinity of Niagara Falls is probably better known to tourists than any other part of America and is visited by hundreds of thousands of sightseers annually. The City of Niagara Falls, Ontario, extends along the west bank of the river nearly three miles from a point above the Cataract to the rapids at the entrance of the Whirlpool and thus includes within its limits some of the most majestic and picturesque scenery in the world. On its western boundary and partly within the Corporation lies the historic battlefield of Lundy's Lane. In this locality at the junction of the Lane with the Portage Road, a Presbyterian Church was built as long ago as 1791; a School House was erected a few years later, and a small village soon grew up near these buildings.

In 1846 the Great Western Railway of Canada, decided to cross the Niagara at a point about a mile and a quarter below the Falls and a joint stock company was accordingly formed for this purpose. It was determined in the first instance to span the river with a carriage and foot bridge, which was actually completed on the 16th of August, 1852, at a cost of only \$50,000. Mr. Roebling, the engineer in charge was then instructed to prepare plans for a Railway Bridge, a short distance further down, and on the 9th March, 1855, the first locomotive passed over the gorge on this structure.

By 1853 the population in the vicinity of these bridges had so greatly increased that a village was incorporated under the name of Elgin, in honor of the then Governor-General of Canada, who had lately taken up his residence at Lundy's Lane in the little village there which had for several years been known as Drummondville, being so called in commemoration of the services of Sir Gordon Drummond, who commanded the British forces in the battle. In 1856 the boundaries of the village of Elgin were extended southward along the river to a point beyond Table Rock and became incorporated as the Town of Clifton on the 19th June of that year. Twenty-five years later this name was changed to the more appropriate one of Niagara Falls, and in January, 1904, the town of Niagara Falls, and the village of the same name, formerly known as Drummondville, were united and incorporated as the City of Niagara Falls. Its present area is about 2352 acres and its population is close upon ten thousand.

In Drummond Hill Cemetery at the south end of the city, there is a handsome monument commemorating the battle of Lundy's Lane, fought on July 25th, 1814, and an appropriate memorial to Laura Secord, the heroine of Beaver Dams, Lieut. Colonels, Bisshopp and Leonard, Captain Torrens and other distinguished soldiers are also buried here.

FALLS BY MOONLIGHT.

## ICELANDIC BOOTH.

This booth is situated second in order to the right of the entrance door. It is strikingly beautiful. Over it floats the flag of Denmark, the native home of our beloved Queen Alexandra, for Iceland is a colony of Denmark.

The predominant feature of this unique colony is snow and ice as played upon by light. This effect is carried out by a combination of white glass with the softest of white materials and clusters of incandescent lights. White! White! everything white—the booth itself—the picturesque dress of the Icelandic matron and maiden—the refreshments—while the white cross (on red ground) of the floating national flag bespeaks cheerfulness and unity and invites you to visit this booth.

## A Glimpse of Sunny Italy.

The structure, if such it may be called, is composed of marble walls and pillars, and is connected with the outside world by means of a wondrously wrought gate, bearing in illuminated letters, the name, Genoese Garden Market and the Italian Shield. The blossoming vines which entwine the pillars, wind their way in divers directions to the centre, forming a canopy of beauty and freshness overhead. The base of the central pillar is surrounded by a mound of flowers and the entire enclosure abounds in the wealth and beauty of tropical fruits and collections of art. Such are the environments amid which, the gorgeously dressed representatives of the "Sunny Race" are vending the dainty wares and sweets and over which the myriads of Italian colored lights, cast an enchanting radiance, not soon to be forgotten.

# A High Class

# Dry Goods Store

## THE ROBERT SIMPSON COMPANY, LIMITED

Began with Dry Goods first in the order of importance, and it is to those stocks which are classed or associated under that head that the weight of prestige goes to-day. And we want it to be so. The Big Store which can justly claim supremacy in Dry Goods rests on the broad solid foundation of success, i.e., the favor of women.

And this store is a favorite with women. It is a woman's store. The great bulk of retail buying is done by women, therefore we see to it that we please women. And of no class of merchandise are women better judges than of Dry Goods, and no better judges of Dry Goods are there than the women who choose, compare, buy, use and wear Dry Goods.

We cordially invite any woman interested in high-class Dry Goods to visit the Store and make herself thoroughly acquainted with its stocks. Every courtesy will be shown whether purchasing be the object of the visit or not, and we are sure the time will be pleasantly and profitably spent, which enables this Store to come into closer contact with its customers.

There's a place to check your hand baggage free of charge and a waiting room with writing tables, pens and stationery, free of charge; and a large modern Toilet Room and Lavatories, freely at your service, while on the 5th floor is located the largest restaurant in the city.

H. H. Fudger, President

# The Place to Buy European Goods

For nearly 40 years a buyer for this house has made semi-annual purchasing trips to the markets of the Old Land, with the result that we occupy a distinct position. No house can

buy better, and no house can afford at less profit. With our great outlet and advantage of buying in large quantities it is reasonable to expect that low prices and high values abound here on all sides in the 23 departments of this the premier retail establishment of the Niagara District.

PLEASE BEAR IN MIND that the first recognized essential at this house is QUALITY. All the separate departmental forces are concentrated in bringing the prices down to the lowest possible notch. See how we succeed.

## YOU TAKE NO CHANCES AT THIS STORE.

We take delight in satisfying our patrons and go to the limit in our guarantee. If in any instance goods are not satisfactory, we will accept them when returned in good condition and will cheerfully REFUND THE MONEY.

## SPECIAL TO OUR AMERICAN FRIENDS.

There is no doubt that we can give you better values in European goods than you can procure at home. You will find it interesting to test this fact when visiting St. Catharines.

## Just a Few Examples of Everyday Values in Imported Goods.

Perrin's LaSalle Guaranteed French Kid Gloves, all shades and sizes, fitted to hand, per pair ..... \$1.00

## The Midway.

The management of The Fair have endeavored to place in The Midway, features which will be both amusing and refined. The Midway is situated outside and directly behind The Fair. It is reached from a passage which leads through the English Castle. In the Midway will be found high-class vaudeville specialties in a large tent, brightly illuminated. These and many other attractions will be enjoyed for a minimum price. Last, but not least, The Midway will supply its guests with the traditional peanut and pop corn counter, rich in attractiveness to the small boy and usually not without its charms to the older ones.

## CLOTHES OF THE HOUR

To be of the world—a part of it, a man must be in step with the  
times.

Clothes are one of the most important factors in the make up of  
the Twentieth Century Man.

With the traditions and customs, to which so many makers of  
Clothes for Men still cling we have no concern.

*We're Clothiers of To-Day.*

In our Spring Suits are incorporated every knack, vagary, and  
trend of fashion in Single and Double Breasted Models.

The fabrics are new and come in a diversity of color schemes and weaves. Smooth sur-  
face and undressed Worsteds, Cheviots in plain or fancy designs, Cassimeres in new tones and  
effects.

Suits, \$10.00, \$12.50, \$15.00, \$18.00, \$20.00 to \$25.00.

# Hydraulic Power Plant

--of the--

## Electrical Development Company of Ontario, Limited.

The works of this Company are situated about one-half mile above the Horseshoe Falls on the Canadian Side and are designed to generate when operating to their full capacity 125,000 horse-power. The main features of this Plant are a very extensive Coffor Dam, massive concrete and cut stone masonry Head Works, Wheel Pit lined with masonry containing at the bottom eleven (11) turbines of 13,000 H.P. each and with a Power House over it, in which are placed the electric generators for converting the hydraulic power into electricity, and a Tail Race Tunnel situated 150 ft. below the river and discharging the tail water from the turbines behind the Horseshoe Falls near its centre.

The Coffor Dam, which is a temporary structure and is now being removed unwatered eleven (11) acres of the river bed, enabling a deep forebay to be excavated in solid rock and a heavy concrete gathering dam to be built out into the river. With the removal of this Coffor Dam, the water will be admitted to the forebay and diverted by the concrete dam to rows of submerged masonry arches built for the purpose of excluding floating ice and frazile.

The water for running the Plant, after passing through these arches and the metal screens situated in the inner forebay, enters the iron penstocks 10 ft. 6 in. in diameter through which it is conducted to the turbines at the bottom of the Wheel Pit. The Wheel Pit itself is 416 ft. long, 22 ft. wide and 150 ft. deep, lined with masonry and re-enforced by rows of concrete arches extending across the Pit. In passing through the turbines, the water sets in motion the runners or wheels which in turn revolve the inner field of the generators on the Power House floor, thus producing the electric power which is to be transmitted to work shops, railroads and other industries.

The water after giving up its useful energy in the turbines is discharged through cast iron draft tubes 9 ft. in diameter up into the bottom of the two Branch Tunnels situated on either sides of the Wheel Pit. These Tunnels join beyond the Wheel Pit forming one Tunnel 23 ft. wide and 27 ft. high, which passing under the bed of the river discharges the tail water behind the Horseshoe Falls.

To give access for the construction of this Tunnel most speedily, it was necessary to sink a shaft on the shore near the Falls and excavate a small construction tunnel out to the Tail Race Tunnel at the point near its end.

The construction of this Plant began three years ago this spring and is now practically completed, except for the installation of machinery and the superstructure of the Power House on both of which work is well along and being pushed rapidly.

## For the Education of Young Ladies.

*Under the Direction of the Ladies of Loretto*

This Institution is beautifully situated on a high and healthy location, overlooking the Falls on the Canadian side, and cannot be equalled for the sublime and extensive view which it affords of the Falls, Rapids and the Islands in the vicinity. The ladies who conduct the establishment consider themselves conscientiously bound to respond to the confidence which parents or guardians place in them by giving their pupils a Christian and virtuous education, strictly attending to their intellectual improvement, cultivating the refinement of manners which will fit them for society, and giving them that physical care which they would receive under the parental roof.

Pupils who are desirous of pursuing a thorough business course, will have ample opportunities for doing so.

Vocal Music, Violin and Elocution taught by Professors.

Difference of religion forms no obstacle to the admission of pupils, provided they are willing to conform to the general regulations of the school.
